

BOARDING POLICY FOR MCAFEE ANIMAL HOSPITAL

It is our goal to make your pet's visit here as pleasurable and healthy as possible. We would, therefore, like to offer these guidelines :

REQUIREMENTS

- * All boarding dogs are required to have a current Rabies, Distemper, Lepto, and Bordetella vaccine. IT IS RECOMMENDED THAT THE BORDETELLA (KENNEL COUGH VACCINE) BE ADMINISTERED 2 WEEKS PRIOR TO BOARDING TO ASSURE PROPER IMMUNITY.
- * All cats are required to have a current Rabies and Feline Distemper vaccine.
- * A semi-annual fecal exam
- * Upon check-in, Capstar (an oral flea preventative) will be administered.

RECOMMENDATIONS

- * A current Feline Leukemia vaccine is recommended for your cat.
- * We provide bedding and bowls. We recommend supplying your own food, as not to change your pets diet and cause gastrointestinal issues.

Baths will be given, at the owners request, on the morning of pick up. These baths are given at the reduced fee of \$23.00 per pet.

- * Pick up time for your pet is 2pm or later if bathed. Please make arrangements at time of drop off, if necessary.

IF YOUR PET EXHIBITS SIGNS OF ILLNESS WHILE BOARDING, TREATMENT WILL BE ADMINISTERED AT OWNERS EXPENSE.

I have read and fully understand this boarding policy. I hereby give my consent to any necessary or required treatment. This form can be kept on file for future boarding.
